Web Music List

In order for your selections to be easily read, please place a checkmark next to those you *most* want played (keep in mind that we can only play about 15 to 18 songs per hour) & an **X** next to those *you don't want played under any circumstances*. TRY NOT TO GET CARRIED AWAY. Highlighter won't work if you fax it back. Artists not found in one place may be in another. It is best to leave the rest to your DJ, but feel free to add additional requests as this list does not show all that we have.
